

CHRISTIAN PAUL GASTARDO

Senior Full-Stack Software Engineer · AI-Augmented Development

Cebu, Philippines | dev.cgastardo@gmail.com | +63 956 890 7242 | christiangastardo.dev
linkedin.com/in/cgastardo | github.com/dongkichan | [Upwork — Top Rated Plus](#)

PROFESSIONAL SUMMARY

Senior full-stack software engineer with **7+ years** of experience shipping production web applications across enterprise, government, and SaaS domains. Specialised in **React, Angular, Next.js, and Spring Boot** with strong cloud experience on **AWS and Azure**. Currently leading PowerApps-to-React migrations using **Claude Code and Codex**. **Top Rated Plus** on Upwork (**100% Job Success Score**, 2,600+ billed hours across 15 projects). Fluent English; time-zone aligned with Singapore (GMT+8).

CORE COMPETENCIES

Frontend

React, Angular, Next.js, TypeScript, JavaScript, TailwindCSS, Vite, Zustand, React Query, NgRx, RxJS, HTML5, CSS3

Cloud & DevOps

Azure (Static Web Apps, DevOps, Automation), AWS (Certified Cloud Practitioner), Google Cloud, Docker, Kubernetes, CI/CD Pipelines

Databases

PostgreSQL, MySQL, MSSQL, MongoDB, Firebase, Dataverse

Languages

Java, Python, TypeScript, JavaScript, C#, Kotlin, PowerShell

Backend

Spring Boot, Node.js, Express, .NET, Python (Flask, Django), REST APIs, Microservices

AI-Augmented Development

Claude Code, Codex, GitHub Copilot, LLM workflow design, prompt engineering, AI-assisted refactoring & code review

Integrations & Tools

Microsoft Graph API, SharePoint, PowerApps, Power Automate, Git, Bitbucket, Azure Repos, Figma

Practices

Agile / Scrum, TDD (JUnit, Jasmine), Code Review, Lean Six Sigma (Yellow Belt)

PROFESSIONAL EXPERIENCE

Software Developer — PowerApps → React Migration

01/04/2026 – Present

Greene Information Systems · Remote (US)

- Migrating legacy PowerApps into production-grade **React + Vite + TailwindCSS** applications using an AI-first development workflow with Zustand and React Query for state management.
- Use **Claude Code and Codex** as primary tools for planning, code generation, and refactoring — owning features end-to-end with minimal supervision.
- Deploy to **Azure Static Web Apps** with CI/CD pipelines through **Azure DevOps** (Repos & Pipelines).
- Integrate with **Microsoft Graph API, SharePoint**, and external platforms; build and maintain **Azure Automation runbooks** and lead clean project handovers with technical documentation.

Full-Stack Software Engineer

03/02/2025 – 25/07/2025

Indicia Worldwide · Remote (United Kingdom)

- Contributed to **In Touch** — an enterprise marketing-optimisation SaaS platform — converting Figma designs into responsive Angular components.
- Designed and shipped a **dynamic grid layout system** with merge / unmerge cell functionality and nested accordion tables.
- Implemented spreadsheet-format data export and complex UI components in **Angular** with Java backend integration.

- Recognised by Global Head of Engineering for “*speed, diligence, and technical expertise*” on a highly complex SaaS migration.

Packaged App Development Senior Analyst

03/06/2024 – 28/02/2025

Accenture · Cebu, Philippines

- Built a **national government tax system** using **Angular with micro-frontend architecture** — modular, independently deployable applications integrated through a shell.
- Implemented **NgRx state management** and reactive forms across high-traffic citizen-facing modules.
- Authored comprehensive Jasmine unit tests, raising overall test coverage and reducing regression incidents.
- Onboarded onto a complex Angular + NgRx + micro-frontends stack in weeks while maintaining delivery velocity.

Senior Full-Stack Developer (Top Rated Plus)

21/02/2023 – 30/11/2024

Upwork — Long-Term Client Engagements · Remote

- Delivered a **1,618-hour** enterprise SaaS engagement building Angular features end-to-end with consistent 5-star ratings.
- Built a **Laboratory Inventory Management System** — a research-grade digital assistant featuring drag-and-drop interactions, chemical structure drawing (Ketcher integration), Google Maps integration, undo/redo, and a rich-text editor.
- Designed reusable component libraries and a complete design system, accelerating downstream feature delivery.
- Awarded **Top Rated Plus badge (top 10% of Upwork)** with a **100% Job Success Score** across 15 completed projects.

Application Systems Engineer

01/02/2021 – 31/10/2023

Fujitsu GDC Philippines (via WeServ Systems Int'l) · Cebu, Philippines

- Built and supported moderate-to-complex integration processes for enterprise clients; collaborated with onshore teams on SharePoint-framework integrations.
- Developed **Calendar Note** — a team collaboration app with mentions, task assignment, and notifications; and **DPulse**, a desktop log-analysis tool processing **500,000+ rows** of operational data.
- Built a deep-learning image-classification system using **TensorFlow and Keras**; awarded **STARS Big Thank You Award** for outstanding client commitment.

Software Engineer / Android Developer

06/05/2019 – 30/09/2020

Koda Kollektiv · Mandaue City, Philippines

- Shipped multiple production Android apps in **Kotlin + Firebase** — including a senior-optimized email client (MailBug) with accessibility-first design, GPS-based services, and real-time database sync.

EDUCATION

Bachelor of Science in Computer Engineering

06/2014 – 03/2019

Cebu Institute of Technology – University · Cebu City, Philippines

CERTIFICATIONS & AWARDS

Certifications: AWS Certified Cloud Practitioner · HackerRank Certified Software Engineer (08/2025) · Angular — Intermediate (HackerRank, 12/2024) · SQL — Intermediate (HackerRank, 08/2025) · Lean Six Sigma — Yellow Belt (06/2025) · Spring Framework: Dependency Injection

Awards & Recognition: Top Rated Plus Badge — Upwork (top 10%) · 100% Job Success Score across 15 projects · STARS Big Thank You Award — Fujitsu GDC · Recommended by Global Head of Engineering, Indicia Worldwide · Consistent 5-star ratings across all rated Upwork engagements

Languages: English (Fluent), Filipino (Native) · **Availability:** 30+ hrs/week, full-time or contract-to-hire; open to relocation to Singapore with EP sponsorship
